DETAILED ACTION

Allowable Subject Matter

Claims 1, 2, 4-6, 9-14 are allowed.

The following is an examiner's statement of reasons for allowance:

After reviewing applicant's amendment, arguments and conducting an updated search none of the cited prior arts alone or in combination discloses the claimed modulation light source with the recited limitations of independent claims 1, 2, 6 and 9, having the recited DBR part, phase part, gain part and a light wavelength conversion device, where a controller provides a current to the DBR part based on the PWM corresponding to an image signal for modulating the fundamental wavelength to deviate from the phase matching wavelength, thereby the wavelength conversion device outputs a second harmonic light or no second harmonic in accordance with the deviated phase matching wavelength as recited in the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
